

FACT SHEET

Who We Are

The Shallowater Education Foundation is an independent, non-profit 501(c)(3) organization. We are governed by a board made up of members of the Shallowater community and educators.

Mission

The Mission of the Shallowater Education Foundation is to support educational excellence and promote community engagement in the Shallowater Independent School District.

Goals and Objectives

The Shallowater Education Foundation will achieve its mission by directing resources toward the following goals:

- Strengthen and enrich learning through the support of innovative programs
- Support additional training and resources for educators of the Shallowater Independent School District
- Provide additional tools to prepare students for future success
- Inspire parents and community members to participate with the school system to enrich education
- And build community support and positive attention for the Shallowater Independent School District

Fund Raising

The Foundation will hold a fund raising campaign in order to award grants for innovative teaching programs in the classroom, to support additional training and resources for educators and to provide students with additional tools in the classroom for future success. The money we raise will supplement, not supplant, our current school budget and the budget constraints because of state funding cuts.

Grants

The Foundation's fiduciary responsibility is to our donors. Through our due diligence, we will ensure that the funds we grant are in line with our goals and objectives. We will hold grant writing workshops for teachers so that they are aware of our application processes, scoring rubric and deadlines. The grant applications will be scored by members of our Programs committee using a rubric. This will ensure that all applications are scored in a uniform manner.
